Building Together

Dear Valued Member/Owners,

It was quite a winter, but it is behind us now, and as the lawns green up again and the trees bud; let yourself take a deep breath and find reason to be thankful and hopeful.

Anyone that has been dramatically impacted by the downturn in our economy has good reason to feel powerless, but together we are not powerless, we are a strong voice and a voice that will be heard. When something negative is happening, often times we move to acceptance rather than cure.

Our state is sick, and it must be addressed with common sense if we are to be able to look forward to stability any time soon.

Important facts to know:

- Michigan lost more private sector jobs since 2000, than any other state in the Union, with nearly 60% of all U.S. job losses since 2000, being in Michigan.
- Less than a quarter of our total job losses were automotive.
- Michigan businesses pay an average of 3%-4% more of their profits in taxes than the average of the "ten best" business tax states, and many peer states. This is unacceptable.
- If Michigan had been a "top ten" state in 2007, the per capita income of Michigan residents would have been an average of \$6,780.00 more per person.
- We are not competitive enough in manufacturing and knowledge jobs. This issue is key to recovery.
- Michigan's budget has gone from a \$2 billion surplus to a \$2 billion deficit in 10 years.

It is no longer enough to standby and watch from the sidelines, we need to seize this moment, become involved and help move Michigan toward a brighter tomorrow. Leadership begins at home.
